### 1. Introduction

\$HRT (Hear Aid Token) is a charity-focused cryptocurrency created to transform blockchain technology into a direct source of humanitarian aid. Our mission is to make every transaction count turning crypto trading into tangible support for real people, real communities, and real change.

From funding medical treatments and therapy for children to rebuilding homes and supporting families in crisis, \$HRT proves that digital finance can be more than speculation it can be a force for good.

### 2. Mission & Vision

**Mission:** To connect blockchain technology with humanitarian action, creating a global ecosystem where every transaction contributes to improving lives and delivering hope.

**Vision:** A world where cryptocurrency is not only an investment tool but also a catalyst for social transformation bridging the gap between digital innovation and real-world compassion.

### 3. Tokenomics

- Total Supply: 1,000,000 \$HRT
- Decimals: 18
- Network: BNB Chain (BEP-20)

#### Distribution

- Liquidity Pool – 50% - locked
- Charity Wallet – 10% - locked
- Charity donation – tax for donations
- Marketing – 3% (Vested)
- Team & Development – 2% (Vested)
- Airdrop – 20% (distributed in three strategic phases)
- Liquidity Reserve – 15% (Locked)

## 4. Airdrop Distribution

To build a strong and engaged global community, the airdrop supply will be released in three strategic phases:

1. Phase 1 – Community Genesis (30%) – Rewarding the first believers and early supporters.
2. Phase 2 – Engagement Boost (30%) – Distributed to active community members through campaigns, tasks, contests, and engagement activities.
3. Phase 3 – Expansion Drop (40%) – Focused on partnerships, ecosystem growth, and global adoption initiatives.

## 5. Transaction Tax

- Buy Tax: 2%
- Sell Tax: 2%

All transaction taxes, both buy and sell, are automatically directed 100% into the official charity system. Every trade directly funds humanitarian initiatives, medical treatments, therapy programs, disaster relief, and social projects. With \$HRT, trading is not just about profit it's about impact.

## 6. Charity Wallet Structure

To ensure both maximum transparency and operational flexibility, the \$HRT charity system operates through two dedicated wallets:

### HRT Charity Vault

- Contains the initial 10% charity allocation.
- Locked for 6 months in a publicly verifiable wallet.
- Funds are reserved for large-scale humanitarian initiatives such as building infrastructure, establishing pediatric recovery centers, and other major social projects.

### HRT Impact Wallet

- Receives 100% of all future transaction taxes.
- Remains unlocked and available for immediate use.
- Used to fund direct donations, urgent medical support, therapy programs, and rapid-response humanitarian campaigns.

This dual-wallet structure combines investor confidence (locked reserves) with real-world utility (accessible tax-funded aid).

## 7. Transparency & Security

Transparency and trust are at the heart of Hear Aid Token:

- All wallets (Charity Vault & Impact Wallet) are public and verifiable.
- Team tokens are vested for 3 months, ensuring accountability and long-term commitment.
- Liquidity reserves are locked for 6 months, guaranteeing price stability and investor confidence.

These measures guarantee that \$HRT remains a project built on integrity, accountability, and purpose.

## 8. Join the Movement

\$HRT is more than a cryptocurrency, it's a mission.

A mission to prove that every wallet, every transaction, and every community member can make a difference. By holding and trading \$HRT, you're helping deliver therapy to children, medical aid to those in need, and hope to families around the world.
